

# **Graduate Student Travel Funding Application**

**Academic Year 2009-2010**

The purpose of Graduate Student Travel Funding is to provide financial assistance to students who have been given the opportunity to present their research projects at conferences, symposiums, etc. The project being presented must be the result of work fulfilling the research requirement for the student's graduate program (thesis or seminar/degree paper).

- The average award per student is \$250, although many situations will result in slightly smaller or larger award amounts.
- All travel funding awards are transferred directly into the budget of the academic department through which the student is working. It is the responsibility of the Department Head to ensure that these funds are available to the student.
- If more than one student in a department or program will be attending the same conference, funding applications should be submitted together.
- Applications (see next page) must be submitted to the Graduate College at least two weeks prior to travel. Funding will not be awarded post-travel.

If you have any questions regarding Graduate Student Travel Funding, please contact Carla Coorts in the Graduate College at 836-5388.
