

The Social Work Program is excited to announce two graduate assistantship opportunities for Fall 2026!

Graduate assistants will work closely with the MSW and BSW Program Coordinators on program support and recruitment efforts, as well as with the Practicum Coordinators to assist with field education needs. In addition, GAs will have the opportunity to collaborate with Social Work faculty on a variety of meaningful projects and initiatives.

These positions are based on the Missouri State University campus in Pummill Hall and require a commitment of 20 hours per week. In return, selected students may be eligible for a living stipend and a fee tuition waiver.

We are currently accepting applications and will continue reviewing them until the positions are filled. You can find more information about graduate assistantships here: <https://graduate.missouristate.edu/currentstudents/Assistantships.htm>

To apply, please submit your cover letter, resume, and application (https://graduate.missouristate.edu/_Files/_GraduateAssistants/GraduateAssistantApplicationForm.pdf) via email to Dr. Michele Brown at michele516@missouristate.edu.

We hope you will consider this exciting opportunity to gain hands-on experience, build connections, and work alongside faculty in the Social Work Program!
